

OFFSHORE PROJECTS - SPC liquid Epoxy installation list
– Projects in Australasia April 07

Project Name	Details	Comments
Offshore projects		
2003	Thai Nippon Steel Engineering Riser pipes	SP8888 Brushgrade for Field joints for 3LPP and 3LPE coated pipes for Chevron offshore .
2003	Thai Nippon Steel Engineering MF2 Project – Risers and Subsea Pipelines	SP8888 coating for 4”, 6” 8” 10” 12” and 16” Pipes, Bends , Field Joint coatings
2004	Chevron Thailand Offshore – 3.5 km xSP8888 rated for 150C. M11-M14 Platforms	Mainline coating for High temp subsea pipeline and Risers
2004	Additional Chevron Projects	SP8888 spray grade used for all risers , pipelines and induction bends SP8888 brushgrade used for the joints and coating repair.

<p>2004</p>	<p>CUEL Offshore Projects</p>	<p>8",10" & 12" (3.8km) offshore subsea pipeline coating, water injection system and Risers.SP2888 and SP8888</p>
<p>2005</p>	<p>Yala Kaphong offshore Projects</p> <p>Chevron Offshore</p> <p>Chevron Offshore</p> <p>Chevron Offshore</p>	<p>Coating for 20" Pipeline Subsea. SP2888. Coating for Bends and Fittings</p> <p>Coating for 16" Subsea pipeline , bends and fittings</p> <p>Coating for 6" , 12" and 20" subsea pipelines.</p> <p>Mainline coating and brushgrade for Joints for 8" 10" and 12" for offshore High temperature SP8888 (150C)</p>
<p>2006</p>	<p>Pailin Water injection Pipeline project</p> <p>CUEL Offshore Project</p> <p>Pearl Oil Thailand Offshore Project</p>	<p>Coatings for 8" Projects – SP2888</p> <p>Coatings for 20" pipeline subsea project , Risers and Bends SP2888 and SP8888</p> <p>Coatings for Subsea, Risers and water injection pipelines SP2888 and SP8888</p>

	Chevron COTL/CTEP offshore Projects	SP2888 and SP8888 used for 6", 12", 10", 16" low and high temperature Coatings for subsea, Risers and Joints
2007	Chevron COTL/CTEP offshore projects Chevron and CUEL offshore Pipeline projects for subsea, Risers, bends and joint coating	SP2888 and SP8888 used for Offshore Subsea, Risers and Water injection systems as well as joint coating PO's- CH4374,C61953703,C61953702,CH3B3719, UCU313708,C61603702,CH43702 and UCU323702 Approx 26,000 litres of SP2888 and SP888 supplied in Q1, 2007- approx 43000 SQ metres of coated pipe
2007	Offshore QP Bull Hanine Project, Qatar	SPC product used for all the field joint coatings for the pipeline offshore rig including the riser, bends etc
